

I wanted to respond to the fact that I have people telling me what is acceptable listening on the radio. Sacramento local station 98.5 98ROCK will no longer be playing the beloved Friday Frenzy. This radio broadcast had lots of songs that are considered profane. They bleeped out everything to abide by your rules. This program has been on the air for the last 15 years & has only had only 3 complaints about the content. This show was a way to sit back & laugh at the end of the workweek. It was only 20-25 mins long. It's not fair we won't be able to listen to it anymore because you say we can't & the radio station doesn't want to get fined. Be misjustice. Thank you
